Mission

To provide a pool of funds to be awarded on a competitive basis for human service programs offered by community-based agencies. The Department of Systems Management for Human Services (DSMHS) and the Department of Administration for Human Services (DAHS) have oversight responsibility for this funding pool.

Focus

Continued efforts have been made to streamline the funding process for both county and community-based agencies. FY 2005 will be the fifth year of a consolidated process for setting priorities and awarding funds from both the Consolidated Community Funding Pool and Community Development Block Grant (CDBG) processes. The FY 2005 General Fund Transfer increases by \$322,935, or 5 percent, for performance and leverage adjustments for nonprofit organizations.

Prior to FY 2000, the CDBG process and the Consolidated Community Funding Pool grant process were similar activities that operated under different time frames, with separate application requirements and different evaluation criteria. With the December 8, 1997 approval of the Board of Supervisors, these two processes were merged under the title of Consolidated Community Funding Pool. The Consolidated Community Funding Pool is funded from federal Community Development Block Grant funds for Targeted Public Services and Affordable Housing; federal Community Services Block Grant funds; and local Fairfax County General Funds. Although the process for setting priorities and awarding funds has been consolidated, Fund 118 contains only the local Fairfax County General Fund and Community Services Block Grant portion of the funds. The federal CDBG funds remain in Fund 142 (for grant accounting purposes).

FY 2005 Initiatives will include:

- ♦ Continue utilization of the two-year contract awards cycle for agencies receiving funds through the Consolidated Community Funding Pool (CCFP),
- Provide ongoing technical assistance and contract management oversight and support to nonprofit recipients of CCFP funds,
- Promote approaches which build community capacity and leadership and the involvement of residents and (where feasible) the population being served in the targeted communities, and
- Review documented service needs and demographic trends and continue to gather relevant information from public meetings, reports, studies and data from County and nonprofit human service agencies.

The Board of Supervisors approved Consolidated Community Funding Advisory Committee's (CCFAC) FY 2005/FY 2006 recommended priorities on July 7, 2003. FY 2005 is the first year of the new two-year funding cycle.

The CCFAC has organized the FY 2005/FY 2006 funding priorities according to five priority areas. The recommended target percentages for each priority area for FY 2005/FY 2006 are intended to be used as guides for applicants and for the Selection Advisory Committee.

Priority Area	Target
1. People Find and Maintain Safe, Appropriate and Affordable Housing	31%
2. People Have the Supports They Need To Be Self-Sufficient	26%
3. Youth Make Safe, Responsible Decisions	16%
4. Families and Individuals Are Healthy, Stable and Independent	16%
5. Families and Individuals Meet Their Basic Needs	11%

A Request for Proposal (RFP) was issued in the fall of 2003, utilizing these funding criteria as approved by the Board of Supervisors. Funds will be awarded for a two-year period on a competitive basis after a citizen Selection Advisory Committee reviews RFP responses from all eligible community organizations. The Selection Advisory Committee will recommend two-year funding awards to the Board of Supervisors in the spring of 2004.

The Department of Systems Management for Human Services and the Department of Administration for Human Services have administrative oversight responsibility for the CCFP. Together with the Fairfax County Department of Housing and Community Development, they are responsible for planning, implementation and oversight of all facets of the CCFP process.

In FY 1997, the Board of Supervisors approved the development and the implementation of a competitive funding process to fund services best provided by community-based agencies and organizations, formerly funded through a contribution or through a contract with an individual County agency. In accordance with the Board's direction, this process was operational in FY 1998 and was guided by the following goals:

- Provide support for services that are an integral part of the County's vision and strategic plan for human services;
- Serve as a catalyst to community-based agencies, both large and small, to provide services and leverage resources;
- ♦ Strengthen the community's capacity to provide human services to individuals and families in need through effective and efficient use of resources; and
- Help build public/private partnerships and improve coordination, especially within the human service regions of the County.

Fund 118 was established in FY 1998 to provide a budget mechanism for this funding process. In FY 2000, Community Development Block Grant (CDBG) funding for community-based organizations was incorporated to form the Consolidated Community Funding Pool (CCFP).

The Consolidated Community Funding Pool process reflects significant strides to improve services to County residents and to usher in a new era of strengthened relations between the County and community private, nonprofit organizations. First, all programs funded through this process are required to develop and track program outcome measures. To aid agencies in meeting this requirement, the County (in partnership with the Fairfax-Falls Church United Way) has provided several performance measurement training opportunities for staff and volunteers from all interested community-based agencies. Second, the criteria used to evaluate the proposals explicitly encourage agencies to leverage County funding through strategies such as cash match from other non-County sources, in-kind services from volunteers, or contributions from the business community and others. Third, the criteria encourage agencies to develop approaches which build community capacity and involve residents and the target population in the neighborhoods being served.

On July 26, 1999, the Board of Supervisors approved the CCFAC recommendation to change from one-year contract awards to two-year contract awards for agencies receiving funds through the Consolidated Community Funding Pool. The CCFAC evaluated the two-year award approach. This review included an extensive series of focus groups with nonprofit community-based organizations, both currently funded organizations and organizations that do not receive CCFP funding for programs they operate. These organizations strongly supported the two-year award cycle initiated in FY 2001/FY2002. Based on this review, the CCFAC recommended, and the Board of Supervisors approved, the continuation of the two-year funding cycle in FY 2003/FY 2004 and again for FY 2005/FY2006.

A major responsibility of the CCFAC is to recommend funding priorities for the Consolidated Community Funding Pool. The CCFAC maintains an ongoing process for the review and analysis of both data and community input that provides the information on which funding priority allocations are based. Community input processes include a variety of citizen and provider input activities conducted throughout the year around the County. The data that the CCFAC considers in setting funding priorities include County human service agency service delivery and demand data, general demographic and economic data and various assessment studies and other analyses conducted by the county government and others. In addition, the CCFAC also draws on the data provided by CCFP providers as part of their contract reporting process. Finally, the CCFAC publishes and broadly disseminates a proposed set of funding priorities and conducts a public hearing on the proposed priorities for the allocation of CCFP funds. Subsequent to the receipt and review of public comments, the CCFAC finalizes the funding priorities and forwards them to the Board of Supervisors for action.
